

Agile Integration

supporting Middleware Solutions and Cloud Infrastructure Specialization

Find your path. Start your journey.

Red Hat Partner Enablement Learning Paths

Red Hat seeks to empower registered Ready, Advanced and Premier partners, in order to build the skills and knowledge that can generate more product and service-based sales whilst enhancing customer satisfaction. The Red Hat Partner Enablement Learning Paths provide a role-specific combination of recommended online and in-person training and workshops. The Learning Paths cover a combination of different Red Hat technology, architecture and delivery knowledge that our partners need to work successfully with the Red Hat technology stack. Please see below our recommended order of online and in-person trainings and workshops:
